

The Risk Management and Patient Safety Institute and MHA Service Corporation's Professional Search Services have teamed up together to provide you the support you need to fill your risk management, patient safety or quality management vacancies.

We offer contingency staffing; temporary staffing; search services for a long-term, permanent replacement; and mentoring once you find the right person.

"After carefully reviewing our overall needs — qualified, cultural compatibility, leadership skills, and a commitment to a rural hospital community — Steve searched and reviewed more than 25 candidates. He recommended five. Our Board of Directors selected two, and we hired one. The entire process was less than four months. Steve's services allowed us to implement an efficient, effective search. We certainly would use him again."
